

Quality and Environmental Policy of Remark-Kayser Sp. z o. o.

Remark-Kayser Sp. z o.o. is committed to the continuous improvement of the quality of its products and processes, as well as minimizing its environmental impact. Our policy, based on ISO 9001 and ISO 14001 standards, is a key element of the company's strategy, aimed at meeting customer expectations while operating in a sustainable and responsible manner.

Our priorities are:

1. Leader in filtration solutions

We strive to maintain a leading position in the market of ecological filtration media suppliers, offering products and services of the highest quality that meet the expectations of our customers.

2. Customer focus

Our priority is to adapt to the current and future needs of our customers by providing personalized solutions that contribute to their success.

3. Environmental responsibility

We are committed to protecting the environment by reducing emissions, managing natural resources, and implementing technologies that promote sustainable development.

4. Ethical relationships with stakeholders

We build lasting and collaborative relationships with customers, suppliers, and employees, guided by honesty, responsibility, and full commitment to fulfilling our obligations.

5. Process improvement and innovation

We aim for the continuous improvement of all our processes, introducing modern technologies and solutions that increase operational efficiency and minimize environmental impact.

6. Employee development and engagement

We support the professional development of our employees by providing them with access to training and tools that enhance their skills and support the achievement of the company's quality and environmental goals.

7. Risk management and regulatory compliance

We systematically analyze risks and opportunities to ensure compliance with legal requirements and respond to changing market and environmental conditions.

The Management of Remark-Kayser Sp. z o.o. is fully committed to supporting this policy, regularly reviewing it, and ensuring the resources necessary for its implementation. Each employee is responsible for adhering to the principles of the policy.

PhD Eng. Stefan Dobak

President of the Management Board
